LOOKING BACK MOVING FORWARD

DR HEMA DIVAKAR

PRESIDENT AHPI KARNATAKA

SPEAKS ABOUT THE
VISION AND MISSION TO SKILL INDIA

A leader's message can have a profound impact on the morale, dedication, and performance of healthcare professionals. Leadership in healthcare is not just about managing teams; it's about inspiring and guiding **skilled healthcare providers** to provide the best possible care to patients. It's about empowering skilled healthcare providers who work tirelessly to deliver quality patient care.

Healthcare is a team effort. We should emphasize the **significance of collaboration** among different healthcare professionals, including doctors, nurses, therapists, and support staff. Stress that each team member plays a vital role in providing holistic care to patients. Encourage open communication, respect for diverse perspectives, and a collaborative spirit.

DR SONIA MANDAPPA

SECRETARY AHPI KARNATAKA

Thanks to the leadership

Dr Giridhar Gyani

Excellence in healthcare is an ongoing journey. We , as Leaders should communicate the importance of continuous improvement, learning, and innovation. Encourage healthcare providers to stay up-to-date with the latest medical advancements and best practices. Remind them that their commitment to excellence directly impacts patient outcomes.

Through AHPI Karnataka in collaboration with HSSC Health Sector Skill Council , this remains our key focus this year, We have rolled out a series of training and skill transfer programmes for frontline healthcare providers . They will be trained and upskilled by empanelled training partners and accredited and certified by HSSC under the Competency Enhancement Programmes

Dr Alex Thomas

Delivering Quality care with Effective communication is crucial in healthcare and online courses is designed for this purpose . We encourage you to enroll every cadre of your staff and help them excel and get their competency certified by HSSC. There are many courses - but lets take one step at a time!
